

Citi Bike Expansion & Infill

Manhattan Community Board 2 November 5, 2020

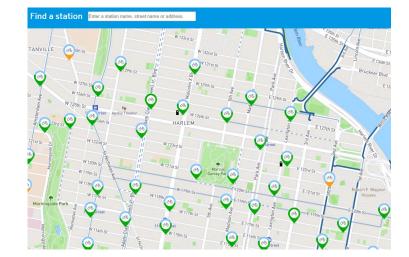

Citi Bike Overview

What is Citi Bike?

New York City's Bike Share System

- Network of shared bicycles
 - Intended for point-to-point transportation
- Increased mobility & convenience
 - Additional transportation option
 - System operates 24/7
 - No need to worry about bike storage of maintenance
- Public-Private Partnership
 - NYC DOT responsible for planning, outreach, oversight
 - Lyft responsible for day-to-day operations, equipment, and maintenance

Citi Bike to Date

7 years of Citi Bike

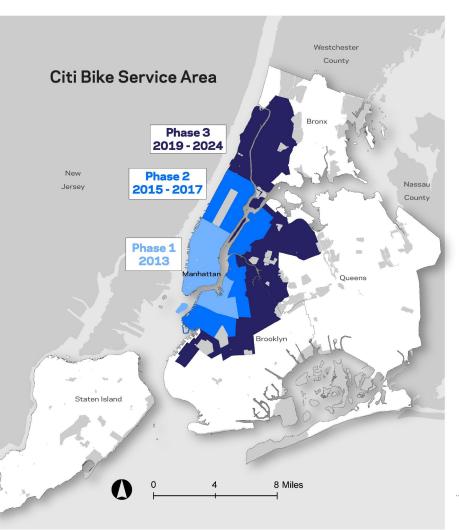

- Launch Phase 1
 - 2013
 - Manhattan & Brooklyn
 - 330 Stations
 - 6,000 Bikes

Phase 2

- 2015 2017
- Manhattan, Brooklyn, Queens
- 750 Stations
- 12,000 Bikes

• Phase 3

- 2019 2024
- Manhattan, Brooklyn, Queens, Bronx
- + 35 square miles
- + 16,000 bikes

High Ridership

By the numbers

107+ million trips to date

5.5+ trips per day per bike

~70,000 daily trips in peak riding months

90,000+ daily rides during busiest days

170,000+ annual members

+17% Growth in daily Citi Bike use from 2018 to 2019

Year-Round average trips per day on Citi Bike 2017: 44,824 2018: 48,315 2019: 56,497

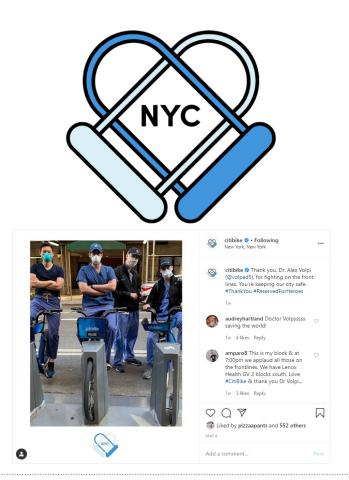

20.6 million Citi Bike trips in 2019

COVID-19 and Citi Bike

NYC DOT & Lyft Response

- Ensuring rider and employee safety
 - Cleaning high-contact areas on bikes when returned to depot
 - Disinfecting bikes when docked at high-use stations near hospitals
 - Using social distancing practicing in the field and while handling bikes
- Critical Workforce Membership Program
 - Provides free memberships for essential workers

Phase 3 Expansion & Infill

nyc.gov/dot

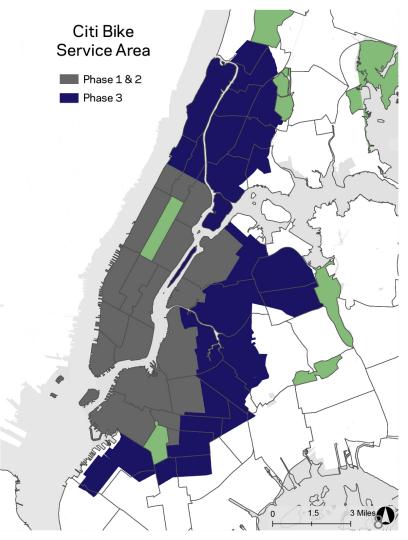

Phase 3 Expansion & Infill

Phase 3 Expansion brings Citi Bike to new parts of NYC and will double geographic size of system

- 32,000 docks
- 16,000 bicycles
- In ~35 square miles

Phase 3 Infill adds new capacity to the existing (Phase 1 & 2) service area

- 16,000 docks
- 8,000 bicycles
- In ~33 square miles already containing:
 - 29,000 docks
 - 13,250 bicycles

Why is Infill part of Phase 3?

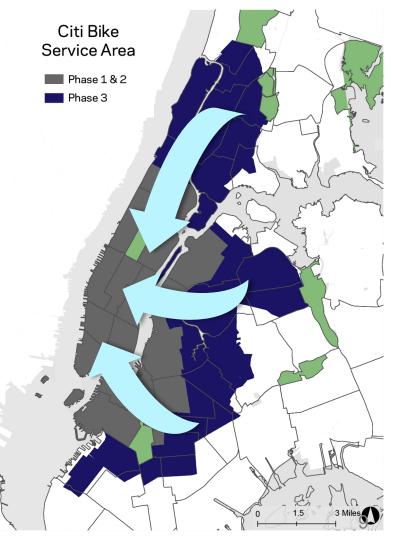

A larger Citi Bike system will have many more bicycles in its core

Citi Bike rider "gravity" pulls bicycles to the center

- Similar to other transit modes, riders move towards the Central Business Districts
- Demand for bikes shifts throughout the day

Infill helps a larger system to function

- Supports increased demand from Phase 3 Expansion
- Helps meet existing unmet demand when riders cannot find a bike or dock
- Improves rebalancing and overall system operations

Timeline & Principles

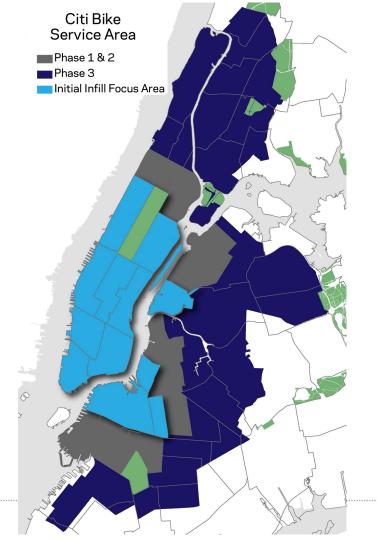

Infill dock distribution to be based on rider demand for more capacity

Four-year, ongoing rollout of new and expanded stations

Areas of highest demand will receive the most docks

Rolling installations

- Installations may cover multiple Community Boards
 at a time
- Iterative planning process will address changes in demand as system expands

10

Design Toolbox

Diverse options for increasing capacity

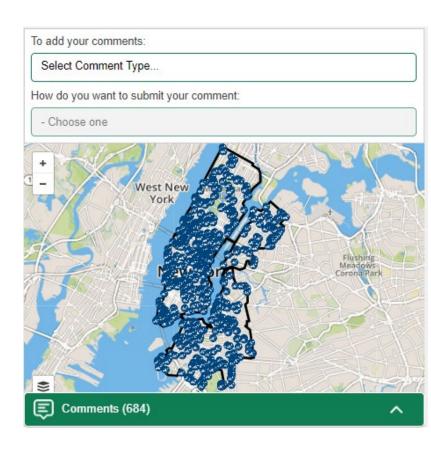

- 1. New Stations
- 2. Expanded Existing Stations
- 3. Creative Design Solutions
 - 3-D Bridging

Planning Process

Rolling outreach and installations

- **Community feedback:** online feedback portal, requests from riders and stakeholders
- **Station siting:** using ridership data and technical criteria to identify feasible locations
- **Community notification:** notify property owners, Community Board, and key stakeholders prior to installation
- Installations
- Ongoing monitoring

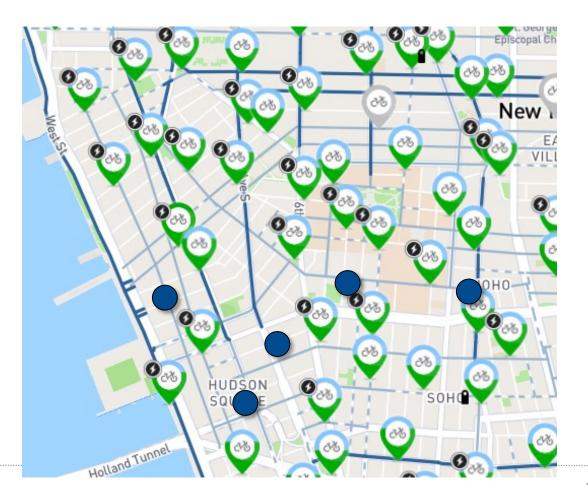

New Stations in Community Board 2

New Stations Overview

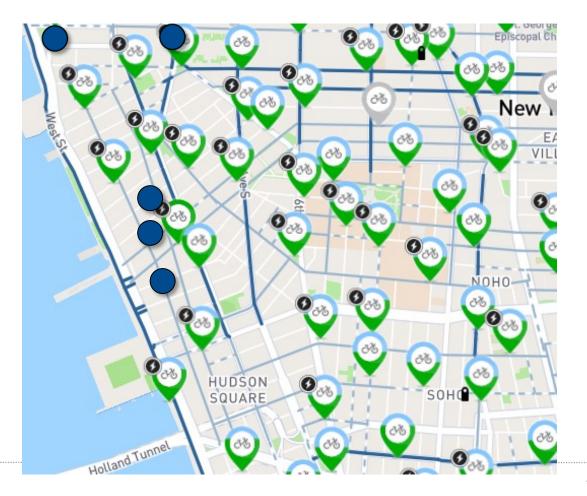

10 New Stations:

- Bleecker St & Lafayette St
 - North roadbed
- King St & Varick St
 - North roadbed
- Spring St & Hudson St
 - South roadbed
- Thompson St & Bleecker St
 - East roadbed
- Morton St & Washington St
 - North roadbed

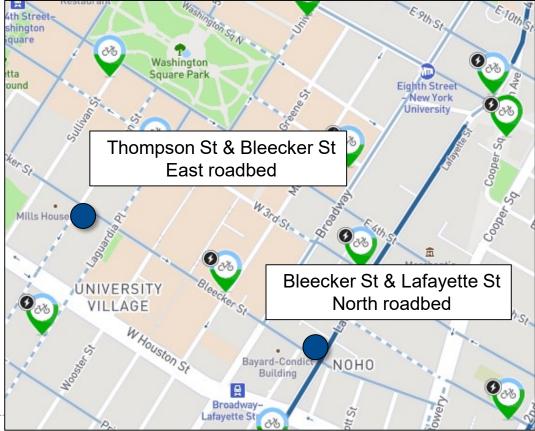

New Stations Overview, cont.

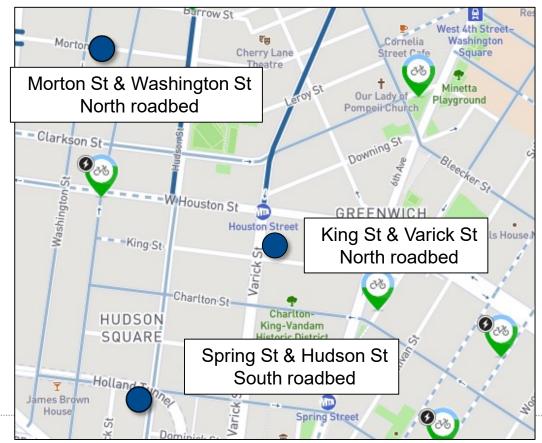

- Washington St & Barrow St
 - East roadbed
- W. 10th St & Washington St
 - North roadbed
- Greenwich St & Perry St
 - West roadbed
- Hudson St & W 13th St
 - East roadbed
- 10th Ave and W 13th st
 - East roadbed
